SOU330X 

SOU330X is simple to operate using **manual knobs** to control oven function and temperature. A secondary menu with additional functions and features is accessed by a **touch control panel**.

Six **cooking levels** inside the ample cavity (each oven with 3.58 cu ft usable capacity) allows a number of different dishes to be cooked at the same time or to easily accommodate large items.

Finished with **finger print proof stainless steel** to aid cleaning, and keep surfaces looking as good as new for longer.

Telescopic racks allow safe and easy access to your meal, racks can be completely extracted from the oven in order to avoid contact with hot surfaces, and can be removed and installed in different positions as required.

A professional **meat probe** is provided as standard for perfect roasting results.
